

Technical Data Sheet

Electrofusion Welding Wipes

ANT Civil Electrofusion Welding Wipes are lint-free, moist wipes infused with 90% Isopropyl Alcohol, designed for effective cleaning and preparation of PE pipes and fittings, ensuring strong and durable welds.

Product Overview

These high-performance wipes effectively remove dust, debris, and contaminants, creating optimal surface conditions for welding. Engineered for precision and reliability, they are an essential tool for achieving high-quality and long-lasting welding results.

Specifications:

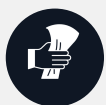

Quantity: 100 wipes per pack

Wipes Size: 15cm x 30cm

Material: 22GSM Lint-free material

Packaging: Convenient pack for easy dispensing and storage

Why Choose ANT Civil Site Wipes

Strong & Durable

Crafted with robust 22GSM material to withstand tough industrial use.

Lint Free Fabric

Ensures no lint residue on PE surfaces, delivering a flawless, clean weld every time.

High Alcohol Content

Formulated with 90% Isopropyl Alcohol for effective and thorough surface cleaning.

Australian Made

Locally manufactured to ensure superior quality and reliability.
